President: Rtn. Abhijit Mhasakar	Phone: 9822030294	
Has club signed Grant MoU (Y / N) : Yes	Email id: president1718rcpoonamidtown@gmail.com	
Project Title	Economic and Community Development by donation of School Bus for continuation of Girls education, Sewage Treatment Plant for School Boys Hostel and Rice De – Husk machine (Vocational Equipment) and Safe Drinking Water equipments to Torana Rajgad Samajonnati Nyas at Velhe, Tal. Velhe, District Pune	
Brief description	<p>TRF Focus areas :</p> <ol style="list-style-type: none">1.Economic and Community Development2. Education and Literacy3. Water and Sanitation. <p>Torana Rajgad Samajonyatu Nyas is NGO and Charitable organization working for village community in and around Velhe Taluka , Dist Pune. Since 1986, organization is working relentlessly for betterment and uplifting the life of the rural people.</p> <p>Important Points</p> <ul style="list-style-type: none">• The Trust has already constructed Boys Hostel for 50 + rural area Boys. For more than 15 years, the stay and food is totally free for the Boys residing there.• They are having 14 Seater Tata Winger donated by Cognizant from last 4-5 years. But the model is outdated and the maintenance is very high. The Girl's are more than 35 nos. So they pick up the Girls from the surrounding villages in 3 ferrys. The transportation is also free for girls.• Safe drinking water provision is required at school.• Rise De-Husking machine will be useful for the farmers in that area since rise is the main crop there. It will be vocational activity.• STP Plant will improve the Health and Hygiene of Boys at Hostel. <p>Need, Benefits and Sustainability of the Project :</p> <p>NGO observed that, significant numbers of girls were discontinuing education after 7th standard due to non-availability of transport facility. Girls were getting married before their legal age. To address this issue, organization started free bus pick-up drop facility to the girls up to 10th Standard, which has received great success.</p> <p>Current bus 14 seater donated by Cognizant in 2012. Since 2012 every year transportation is provided Free of cost to about 70 girls on daily basis. Till now more than 200 girls have been benefited by this noble initiative.</p> <p>Current Bus manufacturer has stopped the manufacturing of the said model and is difficult to get the spares of Bus. So the maintenance cost is high.</p>	

DDF Request Form (RY 2017 – 18)

Current bus 14 seater donated by Cognizant in 2012 needs more maintenance due to road condition in rural area. More parents are requesting to enroll their girls to avail this facility. Due to present bus capacity constraint, it can't accommodate additional enrollment.

When new 40 seater bus will be provided, the multiple trips of a small bus will be reduced to single trip. It will save the fuel cost as well as maintenance cost also. It will save the transportation time also. The save amount in fuel and maintenance can be utilized for other charity object.

The NGO has their own source of funds from Donor's. Through those donations they are managing the fuel cost and maintenance cost and will manage the same in future also.

Current Boys hostel strength is 50+. There is inadequate arrangement for sewage management e.g. traditional soak pit. Due to 50+ strength, the soak pit overflows and creates issue regarding safety, health and hygiene.

STP plant will help to improve health and safety of the students staying at the hostel. STP Plant will have the capacity of 10,000 litre treatment of Sewage per day.

At present there is no Rice De Husk machine in Velhe area. The main crop in the area is Rice. With the Rice De Husk machine, the job of De Husking will be very fast which will save farmers time and money. The facility will be provided at very nominal cost to Poor farmers. Also added benefit will be that some employment will also be generated as a machine operator. The collected nominal amount will be helpful for maintenance of the machine. The machines may be placed at different location in Velhe Taluka so that the beneficiaries will be more and will be from various places.

Who will benefit from this global grant?

1. School Bus – School going Girls in and around the villages. (More than 50)
2. Rice De-Husk machine – Different categories of farmers from poor financial background. (More than 1000 nos)
3. Sewage Treatment Plant (STP) – 60+ Students and the staff from the Hostel.
4. Safe Drinking Water Provision : More than 300 + school children and Boys.

Budget of Project :

1. School Bus = 1867679.00
2. STP Plant = 10,09,460.00
3. Rice De- Husking machine = 1,80,000.00
4. Safe Drinking Water provision = 2,57,861.00
